

Vision: Lifestyles in Response

“Man’s chief end is to glorify God and enjoy Him forever.” – Westminster Catechism

Our goal as worship ministry leaders is to create a community where people can come as they are and learn and experience what it is to worship and enjoy Christ with their lives. Worshipping Christ with our lives is a very common saying; however, it is something that all disciples of God should strive to do every day of our lives.

This year, one of the things we want to focus on is our relationship and understanding of God. We believe that in order to worship Him to the fullest, we need to comprehend who God is and what He has done for us. Once we realize these things, we in turn praise God in response. Joy is one of the theme we desire to explore as we believe that joy can act as a fuel for us to worship. In particular, we plan to explore what joy is, and when it is present in our lives. Through leading the coming year, we hope to see how we can find joy in Him and how joy can inspire us to worship God. To deepen our relationship and understanding of God, we believing that it is important to learn to depend totally on God and learn to wait patiently for Him in our lives. Throughout the coming year, we plan to invest our time in exploring the idea of surrendering ourselves to Christ and the ways of which we can surrender to Him.

Another thing we want to focus on is building a Christ-centered community. We believe that in order to worship Him to the fullest, we need to create a comfortable community that is vulnerable with one another. We hope that the community can be filled with openness, and people will learn to care and encourage one another.

We believe that prayer is the integral part of both our relationship with Christ and one another. With this in mind, we want to learn more about the importance of prayer and to actually pray more. Particularly, we plan to explore different ways of prayer, and to see how prayer can be a time to listen to Him. Also, we hope to develop a habit of thanksgiving and caring for each other in prayer. Ultimately, we wish to see prayer as a desire of our hearts instead of something that we do routinely.
