

## **Women's Ministry Vision : 2021 - 2022**

Chinese Christian Fellowship is a great space for students to meet each other, fellowship, and form lifelong relationships. Commonly observed is the tight-knit groups of peers in their own year since they can relate to one another the most closely. Rarely seen is the formation of intentional and accountable friendships across the students from different years. We believe that is specifically important for the women of CCF for several reasons. Throughout university life, we are constantly changing, learning, and growing in our understanding of God. It is important for women in this faith to communicate with each other as God created man and woman differently. Women's ministry creates a space where advice and thoughtful teaching to one another can be given.

It is said:

"But encourage one another day after day, as long as it is still called "Today," so that none of you will be hardened by the deceitfulness of sin." - Hebrews 3:13

"And let us consider how we may spur one another on toward love and good deeds, not giving up meeting together, as some are in the habit of doing, but encouraging one another—and all the more as you see the Day approaching." - Hebrew 10:24-25

Our main goal of women's ministry is to build encouraging and loving relationships that mutually benefit everyone in the community. So that we can spur each other onto living the life of a Godly woman and being emotionally supportive.

### **Practical ways to implement the vision**

Firstly, we want to be welcoming to all the women who attend the ministry, whether for one time or consistently. We want each and every individual to feel comfortable and loved during their experience. Additionally, we believe holding the meetings in-person will help people feel more connected and converse deeper to help achieve our vision.

The Purpose Driven Life is a book about our identity and purpose of life in God. As university students, we are going through a time period of seeking our true identity, whether it is in school, society or relationships. We hope reading and discussing this book together can help us all in finding answers to questions we have about our lives and securing our identity in Christ.

We also hope to encourage accountability between the women who regularly attend by assigning partners that form a personal relationship with and pray for each other. It is important to have follow-ups and continuous care instead of just one-off sharing. We believe having partners is the best way to achieve this goal.
