

Sport Ministry 2018-2019

Integrating into the larger CCF community can be a very daunting task and may often leave a newcomer lost and discouraged. Sports Ministry can provide a smaller, more casual environment where newcomers can come and develop new friendships with others, while easing themselves into the larger CCF community. We hope to create a safe, supportive, and inviting environment for everyone to develop and share their passion for sports while developing and sharing their passion for God and his Word. By providing a welcoming atmosphere where people can fellowship and enjoy playing sports, we believe that this ministry will help encourage CCFers to live a balanced and healthy lifestyle. Sports Min can provide productive outlets for stress and remind us to always set aside time to spend with God despite our busy lives. The fun and accessible nature of Sports Min can create an amazing opportunity to introduce new people to CCF and help non-Christians gain exposure to the Gospel and Christianity as a whole. Our mutual interest in sports unites us, encouraging us to care for one another and to yearn to better understand one another. We hope that Sports Ministry can not only be a place where members bond with peers and alleviate stress, but also a place where people can experience personal growth, both spiritually and physically.

- ❑ Sports Min was one of our first exposures into CCF. It gave us the opportunity to start bonds with CCFers that we would not have met otherwise and served as a reminder to always make time for God.
- ❑ Sports Min can serve as a break from our busy and stressful lives, where we can encourage a balanced lifestyle as well as thank God for the ability to play
- ❑ Sports Min can foster a community where newcomers and long time CCF members can come together and fellowship through our mutual interest and enjoyment of sports
